RE: 98P-0151/CP1

Dear Madam or Sir:

Enclosed please find 33 postcards signed in support of Farm Sanctuary's petition to ban the slaughter of downed animals for human food. The enclosed cards represent supporters from the states of Maryland, Colorado, and Florida. Each individual who has signed is extremely concerned regarding the current Food and Drug Administration regulations. Each individual takes this matter very seriously, representing not only themselves, but their families, friends, and concern for the general public and 'our' future. Please be expecting additional cards in support of Farm Sanctuary's petition in the upcoming weeks, as I have found many others who have requested more information.

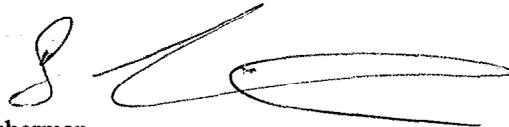

I am an independent supporter currently residing in Colorado who has volunteered to help inform the U.S. Food and Drug Administration of the growing number of citizens who are aware and concerned regarding the current standards.

Animals who are sick or injured even to stand should not be allowed to enter the human food chain. These animals should no longer be subject to cruel, inhumane treatment, nor should humans be subject to consuming them.

I thank you for your time and urge you to reexamine the overwhelming scientific evidence regarding downed animals.

Let us not only think of ourselves today, but of our children tomorrow and of the animals with whom we share this precious earth.

Sincerely,

Cynthia Lieberman
